### Professional Summary

Motivated and self-driven frontend developer with a solid foundation in HTML, CSS, and JavaScript. Skilled in building responsive and user-friendly web interfaces, integrating APIs, and designing with Figma. Passionate about clean UI/UX and bringing ideas to life through code. Looking to grow through hands-on experience in a collaborative tech environment.

---

### Skills

- HTML, CSS, JavaScript
  - API Integration
  - Responsive Design
  - UI/UX Design with Figma
  - Git & GitHub
  - Debugging & Problem Solving
- 

### Projects

#### 1. Lexifind (Dictionary Web App)

Built a functional dictionary app using HTML, CSS, and JavaScript that fetches word meanings and definitions from an external API.

#### 2. Advice Generator

A minimal web app that fetches random advice from an API and displays it interactively with modern UI design.

#### 3. JavaScript Mini Game

Created a fun interactive game using pure JavaScript, showcasing event handling, game logic, and DOM manipulation.
